

Jasper National Park Indigenous Business Directory

Last Updated: March 2025

ABOUT THE PARTNERS

Parks Canada is currently working with more than 20 First Nation, Non-Status, and Métis communities and organizations with connections to lands now called Jasper National Park. The park is in Treaty 6 and 8 territories, as well as the lands and waters of the Anishinabe, Dene-zaa, Nehiyawak, Secwépemc, Stoney Nakoda, and Métis. This directory is intended to connect Indigenous partner-owned and operated companies/businesses with economic opportunities in Jasper National Park.

Indigenous Business & Federal Procurement

The Government of Canada is increasing economic opportunities for First Nations, Inuit, and Métis businesses through the federal procurement process. The requirement for federal departments and agencies ensures a **minimum 5%** of the total value of contracts are held by Indigenous businesses.

Indigenous Relations & Cultural Heritage

For further information, questions about this directory, or guidance, please reach out to the Jasper Field Unit's Indigenous Relations & Cultural Heritage (IRCH) team, at indigenousrelationsjnp-pnjrelationsautochtones@pc.gc.ca.
