REQUEST FOR DECISION

Subject: Rebuilding Phases
From: Bill Given, Chief Administrative Officer
Prepared by: Beth Sanders RPP, Director Urban Design and Standards
Reviewed by: Andy Esarte, A/Director JRCC
Kendra Van Dyk, Director of Jasper Recovery, Parks Canada
Date: September 10, 2024

Recommendation:

That Council accept the Rebuilding Phases update for information.

Background:

Following the devastating impact of the Jasper Wildfire Complex on July 24, 2024, which resulted in the loss of 30% of the town's structures, the Municipality and Parks Canada have been focused on developing an efficient rebuilding process.

The Municipality's first Director of Urban Design and Standards, Beth Sanders, started on August 1, 2024 and started working immediately with Kendra Van Dyk, Director of Jasper Recovery with Parks Canada to create a Jasper Town Rebuilding Team within the Joint Recovery Coordination Centre (JRCC). The Rebuilding Phases were created to provide clarity about the rebuilding process for residents, owners, community organizations, Parks Canada, the Municipality and the JRCC.

Two additional town planners started with the Municipality on September 9, 2024 (Christian Lee and Lucas Sherwin) and will work on the Rebuilding Team alongside other colleagues from Parks Canada.

Discussion:

The objective of the rebuilding process is to streamline the development review and approval procedures to enable efficient reconstruction of homes and businesses, ensuring alignment with Jasper's values. Five phases will guide rebuilding:

- 1. Phase 1: Get Ready to Rebuild**— Leaseholders begin preparing for reconstruction by consulting with insurers and confirm the scope of what they would like to build. The JRCC is tasked with updating land use policies, architectural motifs, and developing online tools and a rebuilding guide to support the community.
- 2. Phase 2: Design Your Build**—Leaseholders work on building plans with accurate site surveys, while the JRCC prepares information on submitting complete applications and develops a streamlined permitting process.
- 3. Phase 3: Application**—Leaseholders submit development permit applications and coordinate safety code sign-offs. The JRCC reviews applications based on the updated Architectural Motif and Land Use Policies, addressing any issues and regularly communicating with applicants.
- 4. Phase 4: Build**—Leaseholders initiate construction and arrange inspections. The JRCC supports this phase by coordinating occupancy inspections to ensure compliance.

5. Phase 5: Occupancy—Final inspections are conducted, and occupancy approvals are granted.

These phases are designed to ensure an efficient approach to the rebuilding process while maintaining a focus on safety, sustainability, architectural consistency, and community values. The JRCC will also facilitate a Rebuild Navigator program to assist leaseholders at each stage, providing essential support throughout the rebuilding aspect of the recovery process. The JRCC will provide progress updates as milestones are met. Phase 4 (Build) will commence when Phases 1-3 and site preparation are complete.

The Municipality of Jasper and Parks Canada have been discussing an increased role for the municipality in planning and development matters. At this point in recovery, the Municipality is actively working with Parks Canada in the rebuilding process and building a solid foundation on which to foster the migration of planning and development functions to the Municipality.

Strategic Relevance:

- Communicate clearly with residents and stakeholders.
- Build community capacity to rebuild Jasper.
- Collaborate with government partners.

Inclusion Considerations:

As Jasper rebuilds, rebuilding “navigators” will be available to assist people through the building design and approval process. This will provide support to those not usually involved in the building process.

Relevant Legislation:

- Canada National Parks Act
- Jasper Community Sustainability Plan
- Agreement for the Establishment of Local Government in the Town of Jasper
- Alberta Municipal Government Act

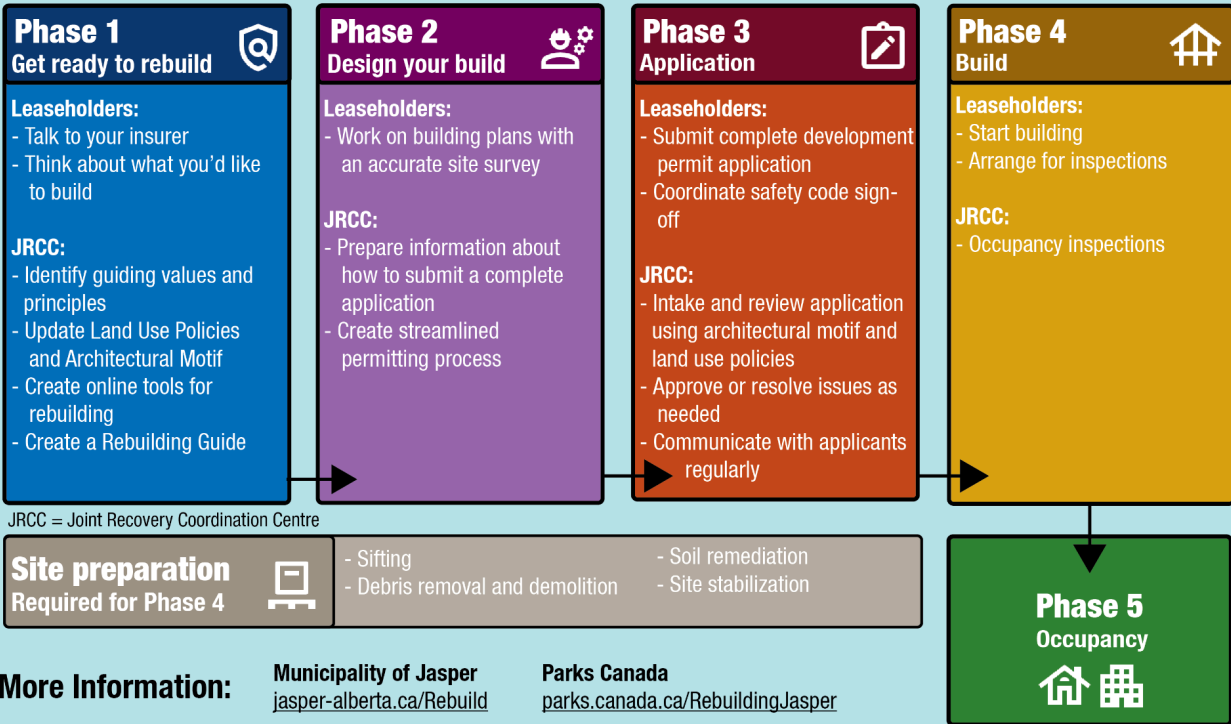

Financial:

The rebuilding process, including staffing and administrative costs, is expected to be supported by provincial Disaster Relief Program (DRP) funding.

Subject: Rail Safety Week 2024 – Sept 23-29, 2024 | Proclamation request

Dear Mayor Ireland,

I hope that this note finds you well and that you are enjoying the end of the summer months. I wanted to take a moment to follow up with you on a note that CN's Chief of Police Stephen Covey would have sent you in July pertaining to Rail Safety Week 2024.

Year after year we at CN do our best to promote a better understanding and knowledge about the risks of being near railroad tracks. Every year more than 2,100 North Americans are killed or seriously injured because of unsafe behaviour around tracks and trains – every one of these incidents and deaths are preventable.

We would ask that you and council consider adopting the attached draft proclamation and that if you do choose to do so, that you please send a copy of that proclamation via email to rsw@cn.ca. Alternatively, you can also sign the proclamation online by clicking [here](#).

Thank you for your time and consideration.
Regards,

Proclamation - Rail Safety Week

- Whereas** Rail Safety Week will be held in Canada from September 23-29, 2024;
- Whereas** 229 railway crossing and trespassing incidents occurred in Canada in 2024; resulting in 66 avoidable fatalities and 39 avoidable serious injuries;
- Whereas** Educating and informing the public about rail safety (reminding the public that railway rights-of-way are private property, enhancing public awareness of the dangers associated with highway rail grade crossings, ensuring pedestrians and motorists are looking and listening while near railways, and obeying established traffic laws) will reduce the number of avoidable fatalities and injuries cause by incidents involving trains and citizens; and
- Whereas** Operation Lifesaver is a public/private partnership whose aim is to work with the public, rail industry, governments, police services, media and others to raise rail safety awareness; and
- Whereas** CN has requested Jasper Municipal Council adopt this resolution in support of its ongoing efforts to raise awareness, save lives and prevent injuries in communities, including our municipality;

Now, therefore, I, Mayor Richard Ireland, on behalf of Council and the Municipality of Jasper, do hereby proclaim the week of September 23-29, 2024 as Rail Safety Week.

AGENDA ITEM 6.1

REQUEST FOR DECISION

Subject: Tax Relief & Revenue Losses
From: Bill Given, Chief Administrative Officer
Reviewed by: Natasha Malenchak, Director of Finance and Administration
Date: September 17, 2024

Recommendations:

- That Council approve, subject to provincial financial support, cancel or refund the Municipal portion of property taxes and the Evergreens Requisition, according to the criteria as presented, and;
- That Council request the Government of Alberta to cancel or refund 2024 education tax levy to be consistent with the cancelled portions of Municipal property taxes cancellation criteria as presented and,
- That Council request the Government of Alberta provide funding to offset losses in core municipal revenue from 2024 to 2027.

Alternatives:

- That Council receive this report for information and uphold the current property tax system, seeing owners of destroyed properties as responsible for 2024 property taxes.
- That Council receive this report for information and maintain core service levels, while allowing the tax burden to shift to owners of remaining properties
- That Council direct administration to identify reductions in core municipal services required to off-set revenue losses.
- That Council direct Administration to revise the proposal and return to a future meeting.

Background:

The approved 2024 municipal budget included total expected municipal property tax revenue of \$11,289,762; Utility revenue of \$7,462,605; Paid Parking revenue of \$1,350,000; Transit Revenue of \$665,077.

The 2024 provincial education property tax for Jasper was \$5,768,534 which was up by \$611,772 (12%) compared to 2023.

As a result of the wildfire disaster a preliminary evaluation has revealed the loss of approximately 30% of the structures in the municipality, including over 800 housing units and a potential loss in property tax assessment of approximately \$283,000,000. Additionally the community was evacuated from July 22 until August 16.

Under Alberta's property tax system, property taxes are based on the assessed value of the property as of July 1 of the previous year and the physical condition of the property as of December 31 of the previous year.

Alberta's Disaster Recovery Program (DRP) is focused on assisting municipalities with extraordinary expenses related to disasters and requires a 10% municipal cost share but the program does not address municipal revenue losses.

At the August 13, 2024, meeting council directed Administration to return with a report outlining the options and cost associated with refunding property taxes for the period following July 22, 2024, on damaged or destroyed properties.

Discussion:

The wildfire event has had and will have a direct impact on municipal revenue through losses in property tax and other revenue sources. Administration is recommending that Council approve providing property tax relief to Jasperites but that the relief be subject to securing support from the Government of Alberta to mitigate the impact of reduced revenue on core municipal services.

Property Tax Loss

Administration has reviewed all destroyed properties and has attached a listing to show the amount of taxes that would be lost should the Municipality cancel taxation for those who have destroyed properties (Attachment 1). The Insurance Bureau of Canada has confirmed that insurance would not typically cover any aspect of property taxes.

The entire Municipality was displaced from July 22, 2024 to August 16, 2024; however, most were unable to return home to stay on this date due to additional cleaning requirements needing to be met before re-entry to their homes to stay. In response Administration is also recommending a full month (base amount) be applied to each residential and commercial property (Attachment 2)

The tax cancellation criteria for properties affected by the wildfire (Attachment 3) is consistent with approaches taken in other municipalities that have faced similar situations and can be summarized as follows:

Residential and commercial properties that were evacuated due to the wildfire will receive a tax cancellation equivalent to 1/12 of their annual tax (base amount). If a property became uninhabitable or inoperable because it was destroyed or suffered irreparable damage, the tax will be further canceled beyond the base amount.

This additional cancellation (total loss amount) will be calculated by prorating the daily municipal tax for the number of days the property remains unoccupied starting from August 16, 2024, until either the property is reconstructed, sold, or the end of 2024, whichever comes first.

The cost of applying the proposed criteria for both the Total Loss and the Base Amounts in 2024 is \$3,294,672.94 as shown in the table below:

	Total Loss Amount	Base Amount
Municipal Taxes	\$1,261,865.91	\$660,261.95
Evergreen Requisition Taxes	\$140,253.90	\$55,979.49
Alberta School Requisition Taxes	\$798,769.54	\$315,785.44
Total Cost	\$2,204,713.41	\$1,089,959.53

In 2025 municipal property tax revenue would rebound slightly as the Base Amount reduction would no longer apply and taxes on damaged or destroyed properties would be applied, but adjusted down to reflecting essentially only land value.

Other Revenue Losses

In addition to the loss of property tax revenue the wildfire event also severely impacted other municipal revenue sources including paid parking, utilities and transit fares. Administration estimates that the combined 2024 revenue loss from these categories is approximately \$1.7M.

While Paid Parking and Transit revenue can be expected to rebound in 2025, utility revenue losses will recover more slowly over time as properties are rebuilt. Administration expects utility revenue will be down approximately 30% compared to a “business as usual scenario”.

Should the smaller remaining tax base be required to make up for the revenue losses the burden could become excessive and cause significant financial strain on homeowners and businesses. Should core municipal expenditures be reduced to make up for the revenue loss there would be a significant erosion in services to the community which would likely both prolong the community’s recovery and damage the destination’s reputation with visitors. In order to mitigate the impact of reduced revenue while maintaining core municipal services Administration is recommending that Council approach the government of Alberta to assist by providing financial support over the 2024 to 2027 timeframe.

Strategic Relevance:

- Take proactive steps to reduce the risk of people becoming vulnerable and respond when they are vulnerable.
- Communicate and engage with residents.
- Ensure residents receive quality service that provides strong value for dollar.
- Pursue alternative revenue sources and equitable distribution of costs.

Inclusion Considerations:

This measure would not only demonstrate the Council’s commitment to supporting the community during this crisis but also help to ensure that those affected have the time and resources necessary to recover and rebuild without the added stress of financial deadlines.

Relevant Legislation:

Alberta Municipal Government Act
Jasper Tax Rate Bylaw #260
Jasper Tax Penalty Bylaw #40

Financial:

Cancellation of taxation will affect the Municipality of Jasper’s cash flow should no relief be obtained. Administration has estimated the total 2024

Attachment 3 – Proposed Criteria

- All residential and commercial properties that were required to be evacuated due to the wildfire – cancelation of 1/12 of the tax (Base Cancelation Amount).

- For every property that became uninhabitable/inoperable because it was destroyed or sustained irreparable damage from the wildfire, cancelation of tax for the base cancelled portion plus the additional amount representing the prorated daily amount of the whole municipal portion of tax multiplied by the number of days in 2024 commencing August 16, 2024, that the property in question was not able to be reoccupied
 - (a) completion of reconstruction of the building on the property,
 - (b) sale of the property to a new owner, or
 - (c) the end of the calendar year 2024;

AGENDA ITEM 6.2

REQUEST FOR DECISION

Subject: Council Remuneration – Post 2025 Election
From: Bill Given, Chief Administrative Officer
Prepared by: Emma Acorn, Legislative Services Coordinator
Reviewed by: Christine Nadon, Director of Protective & Legislative Services
Date: September 17, 2024

Recommendations:

- That Council direct Administration make the report and recommendations available for public feedback until September 27, 2024; and
- That Council direct Administration return to the October 8, 2024 Council meeting with this report and a summary of public input.

Alternatives:

- That Council direct Administration to propose a different compensation model including the following amendments:
 - ...
- That Council direct Administration to hire a consultant to undertake a review of the remuneration policy and procedures.
- That Council direct Administration to maintain the current remuneration structure.

Background:

Council remuneration is typically reviewed by the outgoing Council prior to the commencement of nominations for the next municipal election. A general municipal election will be held in 2025, which means prospective candidates may submit their nomination papers starting January 1, 2025 as per the *Local Authorities Election Act*. The premise is to allow prospective candidates to make an informed decision prior to letting their name stand for municipal elected office.

The last external review of Council pay took place in 2017 when Administration contracted a consultant to undertake the review. The review considered 15 comparable municipalities including: Crowsnest Pass; Vegreville; Bonnyville; Drayton Valley; Rocky Mountain House; Innisfail; Drumheller; Olds; Edson; Banff; Hinton; Canmore; Sylvan Lake; Beaumont; and the Resort Municipality of Whistler, British Columbia.

The Municipality of Jasper's [Policy B-004 on Council Member Compensation and Benefits](#), effective November 1, 2017, outlines the structure for council remuneration, including monthly honorariums, daily honorariums for meetings, and accountable expense allowances. The associated [administrative procedures](#) stipulate that Council pay is to be reviewed in advance of each municipal election.

At the [July 16, 2024 Regular meeting](#) Council approved the establishment of a Council Remuneration Review Committee including public members to complete this work. At the [August 20, 2024 Regular meeting](#), Council reconsidered its decision due to the Jasper Wildfire Complex and subsequent evacuation of the town. The following motion was passed on that date:

MOTION #351/24 - *That Council rescind motion #332/24 that Council approve the Council Remuneration Review Committee Terms of Reference as presented; and*

That Council direct Administration to conduct a review of council remuneration and present recommendations at a future meeting.

Discussion:

With support from the Alberta Municipal Clerks Association, Administration has gathered Council remuneration information for Jasper; Banff; Sylvan Lake; Hinton; Canmore; Olds; High River; Strathcona County; Red Deer County; Edson; Stony Plain; Regional Municipality of Wood Buffalo; Yellowhead County; and Rocky View County (see Schedule 1 attached).

Remuneration for elected officials in the Municipality of Jasper is more complex than that of municipalities of similar size. Jasper's context is unique and as a result the workload is more significant. Comparisons of the municipality's assessment value; the volume and value of tourism; and the location within an internationally acclaimed National Park, all point to Jasper being a more complex municipality than population alone would indicate.

There is great variability with the time requirements of the role. Elected officials are never really off duty. Constituents interact with their elected officials at all times – when they are in the grocery store, out with their families, recreating etc.

Administration is proposing the following principles related to elected official compensation:

- Remuneration must be fair and reasonable;
- Remuneration must not be a barrier to a diverse and representative pool of candidates from Jasper residents;
- Remuneration must recognize the complexity, responsibilities, and time commitments associated with the role of elected officials in the Municipality of Jasper due to:
 - Intergovernmental Relations;
 - Tourism Based Economy; and
 - Wildfire Recovery.

Based on an analysis of the information, and informed by the above principles, Administration is making the following recommendations.

Eliminate Per-Diems

Eliminating per-diem pay for council member attendance at required and optional meetings and events in favor of increasing the base salary is justified as a means to simplify the compensation structure and ensure consistency in remuneration.

The previous per-diem system, which compensated councillors for a wide range of mandatory and optional activities, created administrative complexities and potential inconsistencies in pay. Consolidating these per-diem payments into an increased base salary ensures that all members are fairly compensated for their time and commitment, regardless of the variability in individual attendance. This approach also aligns with modern

compensation practices, which favor clear and predictable salary structures over variable pay, thus enhancing transparency and reducing the administrative burden on municipal staff.

Adjust CPI Only Once During the Term

Moving away from annual adjustments to Council pay based on changes to the Consumer Price Index (CPI) in favor of a single adjustment at the midpoint of the four-year term is justified, particularly in light of the planned increase in the base salary for Council members. The increase in base salary ensures that council compensation is competitive and fair from the outset, reducing the immediate need for frequent CPI adjustments.

General

- Make a CPI adjustment only once during the 2025-2029, at the mid-point of the term.
- Remove per-diems in favour of increased base salary.

Mayor

- Formalize the allowance for the Mayor's phone and service.
- Recognize the Mayor's role as being Full-Time.
- Increase the Mayor's annual base salary to the average of Alberta Mountain Towns (current Jasper, Banff and Canmore amounts averaged): \$99,545.
- Adopt a "no per-diem" approach resulting in an all-encompassing salary: **\$114,417**.

Councillors

- Increase the Councillor's annual base salary to the average of Alberta Mountain Towns (current Jasper, Banff and Canmore amounts averaged): \$28,556.
- Adopt a "no per-diem" approach resulting in an all-encompassing salary: **\$36,056**.

Strategic Relevance:

- Nurture our most important relationships which are those within our organization, all of whom share a commitment to best serve our community.
- Ensure residents receive quality service that provides strong value for dollar.
- Empower our staff by investing in the training and tools they require.

Inclusion Considerations:

This approach acknowledges the strained capacity of public members who may be focused on personal recovery. By leveraging existing municipal data and ensuring transparency through extended public review periods, the process remains accessible and considerate of diverse needs and circumstances.

Relevant Legislation:

- [Local Authorities Election Act](#)
- [B-004 Council Member Compensation and Benefits Policy](#)
- [B-004 Council Member Compensation and Benefits Administrative Procedures](#)

Financial:

The adoption of the recommended all-encompassing salaries above (\$114,417 for the Mayor and \$36,056 for

councillors) would result in a net increase of \$74,555 in salaries and \$17,147 in benefits in the Council budget, for a total increase of \$91,702.

AGENDA ITEM 6.4

REQUEST FOR DECISION

Subject: Parcel CH Access Road & Spruce Avenue Development Tender Award
From: Bernd Manz, Interim Director of Operations and Utilities
Reviewed by: Leanne Pelletier, Municipal Housing Coordinator
Date: September 17, 2024

Recommendations:

That Council:

- Award the 'Parcel CH Access Road & Spruce Avenue Road Development' Tender to Jasper Concrete Ltd in the amount of \$1,227,229.75 (excluding GST) as the lowest evaluated bidder;
- Direct Administration to initiate a Local Improvement Bylaw process to recover the servicing costs the Parcel CH Access Road from benefitting adjacent parcels; and
- Fund the Spruce Avenue Road Development from the Housing Reserve (\$220,000) and the Financial Stabilization Reserve (\$90,000).

Alternatives:

- That Council receive the report for information and take no further action in servicing the future RCMP site and community housing sites south of Connaught Drive adjacent to Spruce Ave at this time.
- That alternative funding sources be identified.

Background:

The Municipality of Jasper issued a tender for the Parcel CH Access Road & Spruce Avenue Road Development that closed on September 3, 2024. The tender involves utility servicing and access to the future RCMP site and two adjacent parcels. Also included, is the extension of Spruce Avenue south of Connaught Drive to provide access to adjacent parcels slated for apartment housing development including the Jasper Municipal Housing Corporation site.

Three qualified bids were received with Jasper Concrete Ltd submitting the lowest qualified bid. A bidder summary is shown in Table 1:

Table 1 Bidder Summary

Bidder	Total Tender
Jasper Concrete Ltd.	\$1,227, 229.75
Parkway Enterprises Ltd.	\$1,632, 844.00
PME Inc.	\$1,974, 932.00

Discussion:

The future RCMP site north of the Forest Park Hotel and west of Connaught Drive will be serviced along a road allowance to the north. Water, sewer and power services will extend from west of the railyard, across Connaught Drive and along the road allowance. The tender scope includes the installation of water and sewer services which involves open cut of Connaught drive and a road extension west (see Figure 1). Work will begin

this fall to complete the utility crossing of Connaught Drive during a low traffic / lower tourist time of year.

The future RCMP site is one of the potential interim housing sites being evaluated by the JRCC. The JRCC supports proceeding with the servicing.

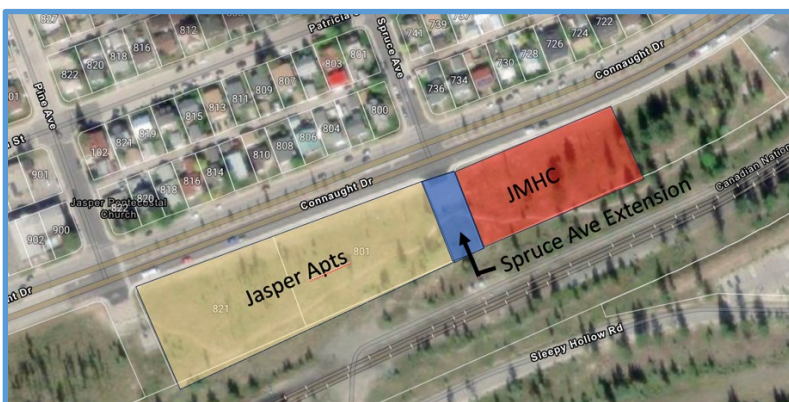

The site to the west is identified for future staff / social housing. The two other sites benefitting from this access and servicing are owned by Parks Canada.

Figure 1 RCMP Site Access & Servicing

The Spruce Avenue extension will provide access to the Jasper Apartments site to the west and the JMHC site to the east (see Figure 2). A Building Permit was submitted for development of two 72 unit on the Jasper Apartments site; anticipating construction this fall. Apartment construction on the JMHC site is expected to begin in the spring.

Figure 2 Spruce Avenue Extension

Strategic Relevance:

This work is aligned with Council’s Housing Strategic Priority: “Investing in infrastructure to support housing.”

Inclusion Considerations:

Providing servicing and access to these parcels creates immediate development opportunities of higher density increased housing – a critical community need.

Relevant Legislation:

- [Jasper Community Sustainability Plan](#) 2.3.1 Housing Goal: “To Increase the availability and affordability of housing in Jasper and provide a balance of tenure and housing types.”
- Municipal Government Act – Local Improvement Levy process.

Financial:

The Tender was broken into two Schedules for the two locations and varying scope of work.

The estimated cost to complete the Parcel CH – RCMP site work is \$1.64M and the Spruce Ave extension is estimated to cost \$528,000 (see Table 2).

The Parcel CH component estimated cost is within the allotted \$1.73M in the 2024 budget. An agreement with the RCMP provides for their 1/3 cost funding (\$547,000). Now that tendered prices are known, a Local Improvement Bylaw process can be initiated to recover the remaining costs (\$1,095,000) from the two other benefiting parcels owned by Parks Canada.

The Spruce Ave extension component can be funded from the Housing Reserve (\$220,000) and the Financial Stabilization Reserve (\$90,000). These funds may be considered a MOJ investment in the JMHC or recovered from the JMHC over time.
